KANSAS · POLICY
INSTITUTE

Kansas Policy Institute is an independent non-profit organization that advocates for free markets and the protection of personal freedom. Our work is focused on state and local issues with particular emphasis on economic freedom and educational freedom.

Guarantee of Quality Scholarship

Kansas Policy Institute is committed to delivering the highest quality and most reliable research on state and local issues in Kansas. KPI guarantees that all original factual data are true and correct and that information attributed to other sources is accurately represented.

INTRODUCTION

The data in this Fact Book all come from official government sources, including local school districts, the Kansas Department of Education (KSDE) and the U.S. Department of Education. All data is the most current available and, unless otherwise noted, is through 2013-2014 academic year. Additional information (including annual historical data) for individual school districts is available on our transparency site, KansasOpenGov.org and on the KSDE site at ksde.org.

We compiled this Fact Book because scientific surveys show that citizens are grossly misinformed on many pertinent facts of public education in Kansas. Aid and spending per-pupil are much higher than many Kansans believe and student achievement is lower than understood. Many Kansas students are doing quite well but thousands of students each year are falling behind, and a false sense of high achievement is a tremendous barrier to getting them the help they need.

State assessment results show that only 54% of Kansas 11th grade students can read grade-appropriate material

with full comprehension. It's intuitive to believe that more money is needed to close achievement gaps but as shown in Table 6, student achievement on independent tests remains unchanged despite billions more in taxpayer support.

Table 15 illustrates that many states get the same or better results while spending less than others. Wisconsin, for example, spends considerably more than Kansas but student scores are consistently lower. Texas, on the other hand, spends considerably less per-pupil than Kansas but gets slightly better results with nearly every student cohort. At the very least, this indicates that it's not how much is spent that matters; it's how the money is spent.

Kansas taxpayers are investing a lot of money into public education. Indeed, Table 1 shows that taxpayer support of public education in Kansas set a new record in 2014, at \$5.976 billion. And the KSDE estimates that 2015 will set another record at \$6.150 billion or \$13,268 per-pupil.

Accurate information is necessary for good decision-making. We hope you find this Fact Book useful as you reach your own informed decisions regarding public education in Kansas.

Table 1: State, Federal and Local Taxpayer Support (*millions of dollars*)

| School Year | State | Federal | Local | Total |
|----------------|---------|---------|---------|---------|
| 1997-98 | 1,815.7 | 189.1 | 1,058.4 | 3,063.2 |

*KSDE does not require students to have full comprehension of grade-appropriate material to Meet Standards. Full Comprehension is considered to be Advanced and Exceeds Standard.

SOURCING AND NOTES

Dollar amounts and other data points on all schedules may vary slightly due to rounding.

Tables 1-3: Kansas Department of Education.

Table 4: Kansas Division of the Budget, FY 2015 Comparison Report Schedule 2.2.

Table 5: National Association of State Budget Officers, State Expenditure Report.

Table 6: National Assessment of Education Progress (NAEP), Kansas Dept. of Education, Bureau of Labor Statistics. Inflation based on Consumer Price Index, Midwest Urban Consumers, average annual index not seasonally adjusted.

Table 7: Kansas Department of Education; KSDE does not require students to read grade-appropriate material with full comprehension (as defined by KSDE) to qualify as Proficient / Meets Standard. KSDE considers full comprehension to be Advanced / Exceeds Standard.

Table 8: Kansas Department of Education. Non-USD schools; includes all private accredited schools that took the state assessment (131 in total in 2013). All Catholic schools are included in Non-USD schools but not all parochial schools. KSDE does not require students to read grade-appropriate material with full comprehension (as defined by KSDE) to qualify as Proficient / Meets Standard. KSDE considers full comprehension to be Advanced / Exceeds Standard.

Table 9: Kansas Department of Education; KSDE does not require students to read grade-appropriate material with full comprehension (as defined by KSDE) to qualify as Proficient / Meets Standard. KSDE considers full comprehension to be Advanced / Exceeds Standard.

Table 10: Kansas Department of Education. Non-USD schools; includes all private accredited schools that took the state assessment (131 in total in 2013). All Catholic schools are included in Non-USD schools but not all parochial schools. KSDE does not require students to read grade-appropriate material with full comprehension (as defined by KSDE) to qualify as Proficient / Meets Standard. KSDE considers full comprehension to be Advanced / Exceeds Standard.

Table 11: Kansas Department of Education; data summary from Tables 7–10.

Table 12: Kansas Department of Education, National Assessment of Educational Progress (NAEP).

Tables 13 & 14: U.S. Dept. of Education, National Center for Education Statistics; scale score range is 0 to 500. All years tested are included.

Table 15: U.S. Census Bureau and U.S. Dept. of Education, National Center for Education Statistics; current spending as reported by each state, which excludes capital and debt. Per-pupil amounts are based on fall headcounts (as opposed to FTE enrollment used for in-state reporting by KSDE). The NAEP scale score range is 0 to 500. Asterisk (*) indicates insufficient reporting data (not enough students). Sorted alphabetically by state.

Tables 16 & 17: U.S. Department of Education, National Center for Education Statistics. A 2009 state mapping study by NCES found that most states have set their cut scores for Proficient below what is considered Basic on NAEP.

Table 18: Kansas Department of Education; certified and non-certified personnel reports. Management includes superintendents, asst. superintendents, principals, asst. principals, directors, managers, supervisors and specialists. Classroom teacher designation per Dale Dennis at KSDE.

Table 19: Kansas Department of Education; certified and non-certified personnel reports.

Table 20: Kansas Department of Education. Total Spending as calculated by KSDE, which is the sum of State, Federal and Local Aid. Instruction and Administration spending comes from the KSDE Comparative Performance & Fiscal System and reflects current operating spending (no allocation of capital or debt). Spending categories as defined by KSDE accounting manual; total spending includes capital and debt service. FTE = full time equivalent. KSDE accounting procedures require districts that host Special Education Co-ops to record all related expenditures of the Co-Op as expenditures of the host district; those expenditures are reimbursed by participating districts, which appears as Local Aid on the books of the host district. (KPI recommends that this procedure be changed so that expenditures are allocated appropriately to each participating district.) Unencumbered Carryover Cash balances exclude all federal funds; current operating funds include all except Capital Outlay, Debt Service and Federal. KSDE does not require students to read grade-appropriate material with full comprehension (as defined by KSDE) to qualify as Proficient / Meets Standard. KSDE considers full comprehension to be Advanced / Exceeds Standard.

“New” indicates a district that has been created since 2005.

“% Chg. ‘05-‘14” reflects the percent change in the data point in the column to the left between 2005 and 2014. For instance, USD 512 has experienced a 38% change in total spending between 2005 and 2014, bringing the current total spending per-pupil to \$12,341.

“Instr. % of Total” is the amount of money spent by each school district on items, as defined by KSDE, on “Instruction.” There is a non-binding state statute saying that districts should spend 65% of their money on “Instruction,” as defined by KSDE.

“Current Oper.” in Unencumbered Carryover Cash reflects the amount of money school districts have in cash reserves that does not include funds for capital, debt, or from federal sources.
