Providing Accountability and Recognition for  
Kansas' High-Performing and Improving Schools

Evaluating Academic Year 2022 Student Achievement

# A-F Grading for Kansas Schools

Providing Accountability and Recognition for  
Kansas' High-Performing and Improving Schools

## Grade Card Indicator/Data Definitions

Every state has a "Report Card" system that provides information on student performance, demographics, attendance rates and other related data regarding public schools. Most state systems, including Kansas, use labels like 'approaching standard' or 'Level 1' that make it difficult for parents to understand how a particular building is performing. Several states (be it through legislative or executive action), however, use labels that everyone understands – A, B, C, D and F. An A-F grading scale is a necessary and intuitive method that provides clarity and transparency to present an overall picture of how a school is doing. It also affords an opportunity for case studies that compare both similar and dissimilar schools; studies that help answer questions of why some schools do well and others do not. Kansas Policy Institute developed this A-F system for citizens and policy makers to facilitate better understanding of the academic challenges to be overcome, recognize public schools that show annual academic achievement gains, and hopefully identify ideas from the improving schools that can be replicated across the state.

An important piece of information included is building-level per-pupil spending amounts. Kansas has formula-based funding and "A-F Grading for Kansas Schools" now shows that some schools outperform other schools regardless of funding levels and/or specific student population characteristics.

The "A-F Grading for Kansas Schools" uses state assessment data generated by the Kansas Assessment Program (KAP) under the operation of the Kansas State Department of Education (KSDE) and assigns an overall school letter grade much like a student report card; equal weighting is applied to a series of individual grades to calculate a Grade Point Average. Each grade level tested by KSDE (grades 3-8 and 10) is assigned a grade for English language arts (ELA) and math for low income kids and those who aren't low income, so each grade tested earns four letter grades. See the Methodology section of this paper for additional information. It should be noted that school size in Kansas varies greatly, and those schools with small student populations can experience significant

swings in performance from year to year. That notwithstanding, the fundamental exercise is still appropriate for all schools.

## Grading Based on Income Level

There are large and persistent achievement gaps for low income students in Kansas, as well as in all other states, and there is also wide variance in the percentage of low income students across individual buildings and districts. For these reasons, a grade based on all students would produce misleading results.

Here's an example. Let's say the low income kids account for 20% of the students in Building 1; their average score is 60 and the average score for other students is 80. The kids in Building 2 get the same scores but half the building is low income kids. Building 1 would have an average of 76 and Building 2 would get a 70, even though the student groups had the same scores. Assigning a grade based on average performance of all students would also allow a building to appear to be getting better even if the low income kids aren't improving or doing worse.

It's not that low income students aren't capable of learning that causes achievement gaps, but that they haven't had equal access to educational opportunities. Those who don't get a good education have a much more difficult time finding employment and are more likely to engage with the judicial system and need social services. The economic vitality of communities is largely related to the academic achievement and education attainment of its workforce, so it's imperative that this large segment of students is highlighted and addressed.

The proxy for low income is qualification for free or reduced lunch pursuant to United States Department of Agriculture rules. The school funding formula provides hundreds of millions of dollars in additional support each year specifically to reduce income-based achievement gaps, providing another reason to monitor those students' progress.

## 2022 Distribution of Grades

A total of 1,269 public and private schools received grades for 2021; a few schools had to be excluded because of data limitations related to privacy issues. The distribution is reflected in the adjacent table. Only two schools earned an "A" – one public school (Marais des Cygnes Valley Elementary – USD 456) and one private school (Brookridge Day School).

Only about one-sixth of all schools earned a "B," while nearly 80% were almost evenly divided between a "C" and a "D." High schools continue to have significantly lower grades,

with 63.4% getting a "D" and about one-in-ten high school earned an "F."

2022 Grade Distribution				
Building Grade	All Grade Levels		10th Grade	
	No.	% Total	No.	% Total
A	2	0.2%	0	0%
B	208	16.4%	9	3.0%
C	506	39.9%	74	24.4%
D	485	38.2%	192	63.4%
F	68	5.4%	28	9.2%

## Methodology

Every spring, students statewide in grades 3 through 8 and grade 10 are tested in the subjects of math and English language arts (ELA). The results of those tests are reported on the Kansas State Department of Education (KSDE) website.

Students earn a score in each subject ranging from 220 to 380. KSDE has developed a "cut score" system for translating those scores into four performance categories. Cut scores vary by grade level and are different for math and ELA but they do not vary from year to year.

These tables show how KSDE distributed scores starting in 2015, followed by the description for each level.

**Level 1** indicates that a student shows a limited ability to understand and use the skills and knowledge needed for Postsecondary Readiness.

**Level 2** indicates that a student shows a basic ability to understand and use the skills and knowledge needed for Postsecondary Readiness.

**Level 3** indicates that a student shows an effective ability to understand and use the skills and knowledge needed for Postsecondary Readiness.

**Level 4** indicates that a student shows an excellent ability to understand and use the skills and knowledge needed for Postsecondary Readiness.

## Translating Raw Scores Into Letter Grades

Given that Level 4 is the highest category attainable, we give an "A" to those scores. A Level 3 score earns a "B." Since Level 2 scores do not fulfill KSDE's goal of being on track to be college/career ready, the top half of Level 2 is assigned a "C" and the bottom half is a "D." Level 1 is assigned an F since those scores are below grade level performance. Using Grade 10 math scores from the adjacent table as an example, here is how letter grades are assigned:

**F:** 220-274

**D:** 275-287

**C:** 288-299

**B:** 300-332

**A:** 333-380

## Calculating a Schoolwide Grade

Establishing letter grades based on cut scores is the first step in calculating the letter grades presented on the "A-F Grading for Kansas Schools." The second step is to get grade level data for every school and assign each grade level within a school four separate grades based on the average scale score for each of these categories:

- Math results for low income students
- Math results for all other students
- ELA results for low income students
- ELA results for all other students

MATHEMATICS				
Grade	Level 1	Level 2	Level 3	Level 4
3	220-275	276-299	300-328	329-380
4	220-265	266-299	300-330	331-380
5	220-272	273-299	300-325	326-380
6	220-272	273-299	300-328	329-380
7	220-265	266-299	300-341	342-380
8	220-273	274-299	300-335	336-380
10	220-274	275-299	300-332	333-380

ENGLISH LANGUAGE ARTS				
Grade	Level 1	Level 2	Level 3	Level 4
3	220-275	276-299	300-326	327-380
4	220-270	271-299	300-334	335-380
5	220-274	275-299	300-325	326-380
6	220-276	277-299	300-335	336-380
7	220-274	275-299	300-334	335-380
8	220-264	265-299	300-333	334-380
10	220-268	269-299	300-333	334-380

The next step is to calculate an average for those grades based on a four-point scale:

- A:** 4 points
- B:** 3 points
- C:** 2 points
- D:** 1 point
- F:** 0 points

Finally, that arithmetic average is translated back into one letter grade based on these ranges:

- A:** 3.50 to 4.0
- B:** 2.50 to 3.49
- C:** 1.50 to 2.49
- D:** 0.50 to 1.49
- F:** Below 0.5

#### Examples:

1. A high school (only 10th graders are tested) has the following four results:

<b>HIGH SCHOOL EXAMPLE:</b>			
Grade/Category	Avg Scale Score	Grade	Points
Math/low income	277	D	1
Math/all others	303	B	3
ELA/low income	295	C	2
ELA/all others	312	B	3
<b>Overall School Grade</b>		<b>C</b>	<b>2.3*</b>

\*9 (total points)/4 = 2.8

2. An elementary school (3rd, 4th, 5th grades tested) has the following 12 results:

<b>ELEMENTARY SCHOOL EXAMPLE:</b>			
Grade/Category	Avg Scale Score	Grade	Points
3rd Math/low income	296	C	2
3rd Math/all others	320	B	3
3rd ELA/low income	305	B	3
3rd ELA/all others	324	B	3
4th Math/low income	311	B	3
4th Math/all others	333	A	4
4th ELA/low income	319	B	3
4th ELA/all others	341	A	4
5th Math/low income	277	D	1
5th Math/all others	292	C	2
5th ELA/low income	300	B	3
5th ELA/all others	320	B	3
<b>Overall School Grade</b>		<b>B</b>	<b>2.8*</b>

\*34 (total points)/12 = 2.8

## Percent “College/Career Ready”

KSDE has defined “college/career ready” as any student scoring in Level 3 or Level 4, according to the approved consolidated state education plan submitted to the U.S. Department of Education pursuant to the federal ESSA.

## Total Enrollment

Enrollment numbers are those defined and reported as “Headcount” enrollment by KSDE as of November 2021. This number is commonly known as the number of students in attendance on September 20. Subsequent adjustments to enrollment are made pursuant to Article 51 72-5132(m) of Kansas Revised statutes.

## Low Income Students

Low income is defined as those students who qualify for free or reduced lunch pursuant to the United States Department of Agriculture’s school lunch program. Those figures are reported by KSDE at the Data Central report generator and the same data is used in this analysis. By state statute those students who qualify for free lunch generate at-risk dollars given to the schools as part of their total state funding.

## Data Concerns

Some schools and/or student population subgroup assessment data may not be available due to student privacy rules set forth by KSDE. Any group or subgroup with a population less than 10 is not reported by KSDE.

The School Improvement Award is offered by Kansas Policy Institute to recognize Kansas schools that show annual academic achievement gains. As much as excellence itself is worth recognition, improvement towards a goal of excellence is also noteworthy.

# School Improvement Award

Kansas is facing serious academic challenges. While funding continues to set records and is far above long term inflation, less than 30 percent of high school students are on track for college or career and large achievement gaps persist for low income students. Simply spending more money hasn't – and won't – make a difference, but identifying buildings that are improving could produce ideas that can replicated across the state and improve public education.

Kansas Policy Institute is an independent non-profit organization that advocates for free markets and the protection of personal freedom. Our work is focused on state and local economic issues in Kansas with particular emphasis on education, fiscal policy and health care. KPI empowers citizens and legislators with credible research and creative ideas to promote a low-tax, pro-growth environment that preserves the ability to provide high quality services. In addition to publishing issue-specific policy analysis and research, KPI also operates several web sites that specialize in investigative journalism, state capital news reporting, transparency in government spending and plain language descriptions of actions taken by the Kansas Legislature.

### **Guarantee of Quality Scholarship**

Kansas Policy Institute is committed to delivering the highest quality and most reliable research on state and local issues in Kansas. KPI guarantees that all original factual data are true and correct and that information attributed to other sources is accurately represented.
